

Motor Flusher

N2600375

N2600450

N2666134

FEATURES

N2600450 N2600375

- Black epoxy coated spring steel
- Quick connect hose tail suits standard garden hose fittings.

N2666134

- Flusher feeds water intakes from both sides for efficient water flow.
- Quick connect hose tail suits standard garden hose fittings.
- Suitable for most outboards and stern-drives with side water intakes.
- Large rectangle cups offer good intake coverage and reduced leakage.
- Suitable for larger horsepower engines.
- Regular flushing reduces metal corrosion and improves impeller life.
